**April 2010**

**Ethiopian Jewish News Update**

*Last month, I wrote to you about our campaign to provide milk to Ethiopian children and infants. The need for milk is so pressing that I feel compelled to write to you again about this. Here's why . . .*

**Six million Ethiopian children are suffering from malnutrition.**

If we don't do something, many may die. There is no simple answer to this horrible tragedy, but one thing will help the situation greatly and that is providing children and infants with much needed milk. That would go a long way toward helping to save young lives.

Such a simple solution – milk! Except here is one sad reality....

Milk like everything else in Ethiopia is outrageously expensive. One gallon of fresh milk in Ethiopia costs \$50. One gallon of powdered milk costs \$35. One-quarter gallon of infant formula powdered milk costs \$16. Milk alone won't solve all the nutritional problems facing Ethiopian children, but a regular supply of this precious commodity can delay the long-term ravages of hunger.

In response to this emergency need, the House of Israel International Ministries (HIIM) has launched a campaign to provide milk to the Beta Israel Messianic Jews as well as other children in Ethiopia. Our goal is to provide milk to as many children as possible, something we can only do with your help. If we are to save the lives of infants and children, we must prayerfully ask for your assistance in helping us to raise the funds that will enable our workers in Ethiopia to purchase and distribute milk to needy families. Our initial goal is to provide milk for 50 infants and children every month.

That is a very modest goal but we must start somewhere, which is why I am asking for your help. With our initial goal in mind, we estimate it will take \$10,000 a month to provide milk to 50 children. Any tax-deductible gift amount this month toward this effort will go toward providing milk, but there are some of you who might be able to sponsor one child for an entire month for \$200. Others might be able to send a \$50 gift to provide one gallon of fresh milk for one week for a needy child.

If you have already given to our milk campaign, I want to thank you! If you can send another gift this month, it would certainly be put to immediate use. If you haven't yet sent a gift to our milk campaign, please consider how much good any gift you send can do to alleviate suffering and even possible death.

Remember . . .

**\$200 will supply fresh milk for one month.**

**\$50 will provide fresh milk for one week.**

**Whatever you send will make a huge difference!**

**Please help as best you can!**

Sincerely

***Kokeb Gedamu***
